Foreword

Today, it is indisputable that reliable information and data are indispensable elements for designing development policies that perform effectively. In the context of tourism recovery in which we are working, these components also constitute a fundamental part in creating strategies that consolidate more sustainable tourism and that increase the contribution of the sector to the Sustainable Development Goals (SDGs) of the 2030 Agenda.

The World Tourism Organization (UNWTO) systematically compiles statistics from countries and territories around the world to help governments better monitor and understand the evolution of the tourism sector and the impact it has on their economies. The extensive database that these figures generate allows us to publish every year two key tools for the sector: the *Compendium of Tourism Statistics* and the *Yearbook of Tourism Statistics*.

The UNWTO *Compendium of Tourism Statistics* provides data and indicators on tourism movements, industries and macroeconomic magnitudes related to international tourism. The information contained in this document is complemented by the *Yearbook of Tourism Statistics*, which includes figures related to inbound tourism (arrivals and overnight stays) broken down by country of origin.

The statistics presented in the 2022 editions of the *Compendium* and the *Yearbook* allow us to explore the multiple facets of tourism and are an indispensable reference guide for all actors in the sector.

Zurab Pololikashvili
Secretary-General, World Tourism Organization (UNWTO)

Avant-propos

Aujourd'hui, on sait incontestablement que pour formuler des politiques de développement qui soient efficaces, il est indispensable de disposer d'informations et de données fiables. Dans le contexte actuel de reprise du tourisme, de tels éléments sont également d'une importance fondamentale pour concevoir des stratégies favorisant un tourisme plus durable et permettant d'accroître la contribution du secteur aux objectifs de développement durable (ODD) du Programme 2030.

L'Organisation mondiale du tourisme (OMT) procède à la compilation systématique des statistiques de pays et de territoires du monde entier, pour aider les gouvernements à suivre et à mieux comprendre l'évolution du secteur du tourisme et ses répercussions sur l'économie. Ces chiffres alimentent une vaste base de données qui permet, chaque année, de faire paraître deux publications clé pour le secteur: le *Compendium des statistiques du tourisme* et l'*Annuaire des statistiques du tourisme*.

Le *Compendium des statistiques du tourisme* de l'OMT fournit des données et des indicateurs sur les déplacements touristiques, les industries et les grandeurs macroéconomiques en rapport avec le tourisme international. Les informations réunies dans cette publication sont complétées par celles de l'*Annuaire des statistiques du tourisme* donnant les chiffres du tourisme récepteur (arrivées et nuitées) ventilés par pays d'origine.

Les statistiques présentées dans les éditions 2022 du *Compendium* et de l'*Annuaire* apportent un éclairage sur les multiples facettes du tourisme et sont une référence incontournable pour tous les intervenants du secteur.

Prólogo

Una toma de decisiones eficaz requiere información fiable que permita orientar adecuadamente las políticas y las estrategias de desarrollo. Esto es de particular importancia en el marco de la recuperación del turismo y para orientar los esfuerzos hacia el desarrollo de un turismo más sostenible, mejorando la contribución del sector al avance de la agenda 2030 y los Objetivos de Desarrollo Sostenible (ODS).

Con el fin de ayudar a los países a supervisar y entender mejor la incidencia y la evolución del turismo en su economía, la Organización Mundial del Turismo (OMT) compila sistemáticamente estadísticas de turismo de países y territorios de todo el mundo en una extensa base de datos que cada año da lugar a dos publicaciones estadísticas clave: el *Compendio de estadísticas de turismo* y el *Anuario de estadísticas de turismo*.

El *Compendio de estadísticas de turismo* de la OMT proporciona datos e indicadores sobre turismo receptor, emisor e interno, sobre el número y los tipos de industrias turísticas, sobre el número de asalariados por industria turística y sobre aspectos macroeconómicos relacionados con el turismo internacional. Estos datos se complementan con el *Anuario de estadísticas de turismo* que se centra específicamente en los datos relacionados con el turismo receptor (totales de llegadas y de pernoctaciones) desglosados por país de origen.

Las estadísticas presentadas en las ediciones de 2022 del *Compendio* y del *Anuario* permiten explorar las múltiples facetas del turismo y son una guía de referencia indispensable para todos los agentes del turismo.

Introduction

The United Nations recognizes the World Tourism Organization as the appropriate organization to collect, analyse, publish, standardize and improve the statistics of tourism and to promote the integration of these statistics within the United Nations system. Pursuant to this mandate, the UNWTO Statistics Department compiles tourism statistics from countries and territories around the world in a statistical database that represents the most extensive international repository of statistical information available on the tourism sector. In addition to the dissemination of this data interactively on the Internet and through various analytical studies, the UNWTO maintains its two flagship statistical publications: the *Compendium of Tourism Statistics* and the *Yearbook of Tourism Statistics*.

The 2022 edition of the *Yearbook of Tourism Statistics* presents data on total arrivals and overnight stays of inbound tourism for 188 countries and territories, broken down in both cases by country of origin.

Arrivals

A. Border statistics

- Table 1: Arrivals of non-resident tourists at national borders
- Table 2: Arrivals of non-resident visitors at national borders

B. Statistics on accommodation establishments

- Table 3: Arrivals of non-resident tourists in hotels and similar establishments
- Table 4: Arrivals of non-resident tourists in all types of accommodation establishments

When a person visits the same country several times a year, each visit is counted as one arrival. If a person visits several countries during the course of a single trip, his/her arrival in each country is also recorded separately. Consequently, arrivals are not necessarily equal to the number of persons travelling, as one person can generate several arrivals.

Arrivals data correspond to international visitors arriving in the economic territory of the country of reference and include both tourists and same-day, non-resident visitors.

Data may be obtained from different sources: border statistics derived from administrative records (police, immigration, traffic counts and other types of controls), border surveys and registrations at accommodation establishments.

Overnight stays

- Table 5: Overnight stays of non-resident tourists in hotels and similar establishments
- Table 6: Overnight stays of non-resident tourists in all types of accommodation establishments

Overnight stays refers to the number of nights spent by non-resident tourists in accommodation establishments (*guests*). If one person travels to a country and spends five nights there, that makes five tourist overnight stays (or person-nights).

The titles of tables, names of countries, regions and sub-regions as well as the classification included in the tables are provided in English only, with notes in English, French and Spanish. Countries appear in English alphabetical order. The data included in the *Yearbook* correspond to official statistics collected by governments or national tourism administrations and reported to UNWTO through annual questionnaires. The UNWTO Statistics Department publishes the data after performing quality checks in terms of data validation and verification with the countries. Due to the rounding of the partial figures, the totals shown in the different tables of the *Yearbook* may not coincide with the totals shown in the basic indicators of the *Compendium of Tourism Statistics*.

In this 2022 edition of the *Yearbook*, the context of the COVID-19 pandemic must be taken into account, as it has caused an unprecedented situation worldwide that has especially affected the tourism sector and also the statistical systems of countries. Many countries have faced significant challenges in collecting information, including the suspension of surveys and border closures, limiting their ability to provide data or more complete data in some cases.

The 2022 edition of the *Yearbook* reflects the official data as entered in the UNWTO statistical database as of 28 February 2022. Therefore, any corrections or changes received after this date will not appear in this publication until the next edition.

The data presented in the *Yearbook* are also available in other formats (Excel and online) through other dissemination channels:

- In the UNWTO Elibrary (www.e-unwto.org) and
- Through the UNWTO “Tourism Data Dashboard” (<https://www.unwto.org/tourism-data/unwto-tourism-dashboard>).

The World Tourism Organization wishes to express its gratitude to the national tourism administrations and national statistical offices for their valuable support, recognizing especially the crucial role of all contributing countries and territories for their continued commitment to the development and improvement of tourism statistics.

Introduction

L'Organisation des Nations Unies reconnaît en l'Organisation mondiale du tourisme (OMT) l'organisme approprié pour recueillir, analyser, publier, unifier et améliorer les statistiques touristiques et promouvoir l'intégration de ces statistiques à l'échelle du système des Nations Unies. Conformément à cette mission, le département des statistiques de l'OMT compile les statistiques du tourisme de pays et de territoires du monde entier dans une base de données statistiques qui représente le réservoir le plus complet au niveau international d'informations statistiques disponibles sur le secteur du tourisme. En plus de diffuser ces données en mode interactif sur internet et sous forme d'études analytiques, l'OMT continue de faire paraître ses deux publications phares dans le domaine de la statistique : le *Compendium des statistiques du tourisme* et l'*Annuaire des statistiques du tourisme*.

L'édition 2022 de l'*Annuaire des statistiques du tourisme* présente des données sur le nombre total d'arrivées et de nuitées du tourisme récepteur pour 188 pays et territoires, ventilées dans les deux cas par pays d'origine.

Arrivées

A. Statistiques aux frontières

- Tableau 1: Arrivées de touristes non résidents aux frontières nationales
- Tableau 2: Arrivées de visiteurs non résidents aux frontières nationales

B. Statistiques sur les établissements d'hébergement

- Tableau 3: Arrivées de touristes non résidents dans les hôtels et établissements assimilés
- Tableau 4: Arrivées de touristes non résidents dans tous les types d'établissements d'hébergement

Lorsqu'une personne visite le même pays plusieurs fois dans l'année, chacune de ses visites est comptée séparément comme une arrivée. Si une personne visite plusieurs pays au cours d'un seul et même voyage, son arrivée dans chaque pays est elle aussi enregistrée séparément. Par conséquent, le nombre d'arrivées n'est pas forcément égal au nombre de personnes qui voyagent, étant donné qu'une personne peut donner lieu à plusieurs arrivées.

Les données des arrivées correspondent aux visiteurs internationaux sur le territoire économique du pays dont il s'agit, visiteurs qui comprennent à la fois les touristes et les visiteurs de la journée (excursionnistes) non résidents.

Ces données peuvent provenir de différentes sources : statistiques aux frontières tirées des registres administratifs (police, immigration, comptages de véhicules et autres types de contrôle), enquêtes aux frontières et registres des établissements d'hébergement.

Nuitées

- Tableau 5: Nuitées de touristes non résidents dans les hôtels et établissements assimilés
- Tableau 6: Nuitées de touristes non résidents dans tous les types d'établissements d'hébergement

Les *nuitées* correspondent au nombre de nuits que les touristes non résidents ont passées dans les établissements d'hébergement (en qualité de *clients*). Si une personne se rend dans un pays et y passe cinq nuits, on enregistre cinq nuitées de touriste (ou nuits-personne).

Les titres des tableaux, les noms des pays, des régions et des sous-régions ainsi que la classification incluse dans les tableaux apparaissent uniquement en anglais, tandis que les notes sont en anglais, espagnol et français. Les pays sont classés selon l'ordre alphabétique anglais. Les données incluses dans l'*Annuaire* correspondent aux statistiques officielles recueillies par les gouvernements ou par les administrations nationales du tourisme et communiquées à l'OMT au moyen de questionnaires annuels. Le département des statistiques de l'OMT publie les données après les avoir soumises à des contrôles de qualité passant par un travail de validation des données et de vérification auprès des pays. En raison des arrondis opérés sur les données partielles, il se peut que les totaux apparaissant dans les différents tableaux de l'*Annuaire* ne correspondent pas aux totaux des indicateurs de base du *Compendium des statistiques du tourisme*.

Il faut, pour cette édition 2022 de l'*Annuaire*, avoir à l'esprit le contexte de la pandémie de COVID-19, qui a été à l'origine d'une situation sans précédent à l'échelle mondiale et a frappé tout particulièrement le secteur du tourisme et aussi les systèmes statistiques des pays. De nombreux pays ont été confrontés à d'importants défis pour compiler les informations, du fait notamment de la suspension des enquêtes et de la fermeture des frontières, limitant parfois leur capacité de fournir des données ou des données plus complètes.

L'édition 2022 de l'*Annuaire* montre les données officielles saisies dans la base de données statistiques de l'OMT au 28 février 2022. Par conséquent, toute correction ou modification reçue après cette date n'apparaîtra pas dans cette publication jusqu'à la prochaine édition.

Les données présentées dans l'*Annuaire* sont également disponibles dans d'autres formats (Excel et en ligne) par d'autres canaux de diffusion :

- Bibliothèque électronique de l'OMT (www.e-unwto.org)
et
- Plateforme de visualisation de données «Tourism Data Dashboard» de l'OMT (tableau de bord de données sur le tourisme; <https://www.unwto.org/tourism-data/unwto-tourism-dashboard>).

L'Organisation mondiale du tourisme exprime sa gratitude aux administrations nationales du tourisme et aux bureaux nationaux de statistique pour leur aide précieuse. Elle tient à relever spécialement le rôle crucial de tous les pays et territoires qui fournissent des données et maintiennent leur engagement à l'appui du développement et de l'amélioration des statistiques du tourisme.

Madrid, mars 2022

Introducción

Las Naciones Unidas reconocen que la Organización Mundial del Turismo es la organización competente para recopilar, analizar, publicar, uniformar y mejorar las estadísticas de turismo y promover la integración de esas estadísticas en el marco del sistema de las Naciones Unidas. Siguiendo este mandato, el Departamento de Estadísticas de la OMT recopila estadísticas de turismo de países y territorios de todo el mundo en una base de datos de estadísticos que representa el más extenso repositorio internacional de información estadística disponible sobre el sector turístico. Además de la difusión de estos datos de manera interactiva por internet y a través de varios trabajos analíticos, la OMT mantiene sus dos publicaciones estadísticas insignia: el *Compendio de estadísticas de turismo* y el *Anuario de estadísticas de turismo*.

La edición de 2022 del *Anuario de estadísticas de turismo* presenta datos sobre totales de llegadas y pernoctaciones del turismo receptor para 188 países y territorios, desglosados en ambos casos por país de origen.

Llegadas

A. Estadísticas de fronteras

- Tabla 1: Llegadas de turistas no residentes a las fronteras nacionales
- Tabla 2: Llegadas de visitantes no residentes a las fronteras nacionales

B. Estadísticas en establecimientos de alojamiento

- Tabla 3: Llegadas de turistas no residentes a los hoteles y establecimientos asimilados
- Tabla 4: Llegadas de turistas no residentes a todo tipo de establecimientos de alojamiento

Cuando una persona visita un mismo país varias veces en un año, cada una de esas visitas se cuenta como una llegada. Si una persona visita varios países en el transcurso de un mismo viaje, cada llegada a uno de esos países se registra también por separado. Por lo tanto, el número de *llegadas* no coincide necesariamente con el número de personas que viajan, ya que una persona puede generar varias llegadas.

Los datos de llegadas se refieren a los visitantes internacionales que llegan al territorio económico del país de referencia, sean turistas o visitantes del día no residentes.

Los datos pueden proceder de diversas fuentes: estadísticas de fronteras basadas en registros administrativos (policía, inmigración, recuentos de circulación y otros tipos de controles), encuestas en las fronteras y registros en establecimientos de alojamiento.

Pernoctaciones

- Tabla 5: Pernoctaciones de turistas no residentes en hoteles y establecimientos asimilados
- Tabla 6: Pernoctaciones de turistas no residentes en todo tipo de establecimientos de alojamiento

Las *pernoctaciones* se refieren al número de noches que pasan los turistas no residentes en establecimientos de alojamiento (*huéspedes*). Si una persona viaja a un país y pasa en él cinco noches, se contarán cinco pernoctaciones turísticas (o pernoctaciones/persona).

Los títulos de las tablas, los nombres de los países, las regiones y las subregiones, así como la clasificación incluida en las tablas, figuran únicamente en inglés, mientras que las notas aparecen en español, francés e inglés. Los países aparecen siguiendo el orden alfabético en inglés. Los datos incluidos en el *Anuario* corresponden a las estadísticas oficiales recopiladas por los gobiernos o las administraciones nacionales de turismo, y comunicadas a la OMT a través de cuestionarios anuales. El Departamento de Estadísticas de la OMT publica los datos, después de aplicar controles de calidad en términos de validación de los datos y verificación con los países. Debido al redondeo de las cifras parciales, los totales que figuran en las distintas tablas del *Anuario* pueden no coincidir con los totales que aparecen en los indicadores básicos del *Compendio de estadísticas de turismo*.

En esta edición de 2022 del *Anuario*, hay que tener en cuenta el contexto de la pandemia de la COVID-19 que ha causado una situación sin precedentes a nivel mundial y que ha afectado especialmente al sector del turismo y también a los sistemas de estadísticas de los países. Muchos países se han enfrentado a retos importantes en la recopilación de información, incluidos la suspensión de encuestas y el cierre de fronteras, en algunos casos limitando su capacidad de facilitar datos o datos más completos.

La edición de 2022 del *Anuario* muestra los datos oficiales introducidos en la base de datos estadística de la OMT a 28 de febrero de 2022. Por lo tanto, cualquier corrección o cambio recibido después de esta fecha no aparecerá en esta publicación hasta la próxima edición

Los datos presentados en el *Anuario* están también disponibles en otros formatos (Excel y en línea) mediante otros canales de difusión:

- en la biblioteca virtual de la OMT (www.e-unwto.org) y
- a través de la plataforma de visualización de datos “Tourism Data Dashboard” de la OMT (panel de control de turismo; <https://www.unwto.org/tourism-data/unwto-tourism-dashboard>).

La Organización Mundial del Turismo desea expresar su agradecimiento por su valioso apoyo a las administraciones nacionales de turismo y a las oficinas nacionales de estadística, y reconocer especialmente el papel crucial de todos los países y territorios que contribuyen con sus datos y mantienen su compromiso de desarrollar y mejorar las estadísticas de turismo.

Lebanon	Total	Excluding the Lebanon, Syria and Palestine nationalities.
Madagascar	Total	“Prior to 2015, the Directorate for Information and Monitoring of Immigration and Emigration (DRCIE) of the Ministry of Public Security of Madagascar recorded the nationalities of visitors for the entire country. For the year 2018, a clear improvement was put in place compared to the collection system for the landing at Nosy-Be Airport. Previously, the DRCIE was only able to issue data from Ivato International Airport. Therefore, figures for “other countries of the world” currently show the nationalities of non-resident visitors arriving at the six (6) international airports of Toamasina, Sainte-Marie, Antsiranana, Mahajanga, Fort-Dauphin and Tuléar. End of 2018 and all 2019, NosyBe International Airport has 16 flights per week operated by several international companies, which shows a clear increase in the number of tourists from various nationalities, including Italians.”

Au titre de l'année 2018, une nette amélioration a été mise en place par rapport au système de collecte pour le débarquement à l'Aéroport de Nosy-Be. Auparavant, le DRCIE ne livrait que les données de l'Aéroport international d'Ivato. Donc, les chiffres des “ autres pays du monde “ représentent actuellement les nationalités des visiteurs non résidents débarquant dans les six (6) aéroports internationaux de Toamasina, Sainte-Marie, Antsiranana, Mahajanga, Fort-Dauphin et Tuléar. Fin d'année 2018 et la totalité de l'année 2019, l'Aéroport International de NosyBe est servis par 16 vols par semaines par plusieurs compagnies internationales ce qui montre une nette augmentation de nombre des touristes de diverses nationalités dont l'italienne. “

Understanding, for each country, where its inbound tourism is generated is essential for analysing international tourism flows and devising marketing strategies, such as those related to the positioning of national markets abroad. Deriving from the most comprehensive statistical database available on the tourism sector, the *Yearbook of Tourism Statistics* focusses on data related to inbound tourism (total arrivals and overnight stays), broken down by country of origin.

The 2022 edition of the *Yearbook of Tourism Statistics* presents data on total arrivals and overnight stays of inbound tourism for 188 countries and territories, broken down in both cases by country of origin, while the COVID-19 pandemic has been taken into account, as it has caused an unprecedented situation worldwide that has especially affected the tourism sector and also the statistical systems of countries.

The **World Tourism Organization (UNWTO)**, a United Nations specialized agency, is the leading international organization with the decisive and central role in promoting the development of responsible, sustainable and universally accessible tourism. It serves as a global forum for tourism policy issues and a practical source of tourism know-how. Its membership includes 160 countries, 6 territories, 2 permanent observers and over 500 Affiliate Members.
